This can happen if either the item search timeout is too small or if items within a rooted folder do not share a common parent element. To fix this problem, first increase the item search timeout. If this does not help, create a separate rooted folder for this item or disable caching for the specified folder.
02:08.602	Success	Validation	Attribute 'Text' of element for item 'LaunchFSWRepository.WindowAutomationIdsStandAloneShell.Tex t2' does match the specified value.
